

KINGSWAY MUSIC LIBRARY

FREQUENTLY ASKED QUESTIONS

I have a song that's being released where I used a Kingsway sample, what do I do to get it cleared?

The first step in clearing a sample is to fill out the Sample Request Form that was included in your download of the Kingsway sample pack and send it over to kingswaymusiclibrary@gmail.com. Once we have the basic information regarding the usage we can advise on clearance terms and issue an agreement to you for signature.

Are clearances free of charge?

This depends on the status of the artist releasing the track - for independent or unsigned artists we waive the clearance fee in lieu of a share in royalties. For artists signed to labels (major or indie) there are clearance fees required, to be negotiated in good faith between our respective teams prior to release.

I used a Kingsway sample on a beat I made and then sold the beat to an artist or producer, do I need to let them know?

Absolutely - any usage of the library should be disclosed, and clearance should be obtained before any music is released that contains Kingsway samples.
